

Get U Loose

Ruben Studdard

Yeah, I got to do it to you
Come on, baby
Come with me, sit on the stoop
Until it starts to get u loose Girl, I see you across the road, you're looking fly
And I feel like coming through and saying hi
Gotta check my swagger, get my pimping tight
Gotta get you on that patron and get you feeling right Girl, the way that I feel it's your lucky day
If you want you can push my whip to my place
You're so inviting, I'm so excited
To see what you got for me, I'm gonna like it You say you don't like to rush in
You say you won't but I know you will
Baby, don't front, you can let me in
I won't be more than you can deal with So let's go, baby, step into my Range Rover
Push it to the crib, let's cut until we hangover
You got the body up, I got the do it do it juice
Let's hit it and sip it until it starts to get u loose Now I know you're checking me, it's in your eyes
All the things you heard about me, the men don't lie
Girl, if I'm coming off the sheet then even I apologize
But girl, the way that you throw it gave me an appetite But it feels like I've been saving you for days
Can't wait to take you out and meet you off my plain
You're so inviting, I'm so excited
To see what you got for me I know I'll like it You say you don't like to rush in
You say you won't but I know you will
Baby, don't front, you can let me in
I won't be more than you can deal with So let's go, baby, step into my Range Rover
Push it to the crib, let's cut until we hangover
You got the body up, I got the do it do it juice
Let's hit it and sip it until it starts to get u loose I know you're willing to do whatever, let me get u loose
Keep on sipping and giving in girl, go head get loose
Don't trick yourself, girl, just come treat yourself, girl
I wanna hear you calling my name Say, all you baby in, your body my body gonna be friends
I wanna you, wanna
All you baby in your body my body gonna be friends
Girl, stop acting so confused, you know just what you wanna do So let's go baby, step into my Range Rover
Push it to the crib, let's cut until we hangover
You got the body up, I got the do it do it juice
Let's hit it and sip it until it starts to get u loose Let's go baby, step into my Range Rover
Push it to the crib, let's cut until we hangover
You got the body up, I got the do it do it juice

Let's hit it and sip it until it starts to get u loose
Saying it's up to you, if your man don't know what to do
Then let me help you get loose, I got the do it do it juice
This goes out to you and all the girls in your crew
Come with me, sip on this juice until it starts to get u loose
Saying it's up to you, if your man don't know what
to do
Then let me help you get loose, I got the do it do it juice
This goes out to you and all the girls in your crew
Come with me, sip on this juice until it starts to get u loose
Let's go baby, step into my Range Rover
Push it to the crib, let's cut until we hangover
You got the body up, I got the do it do it juice
Let's hit it and sip it until it starts to get u loose
