# Never Goodbye

## Day Of Fire

Days go by and I'm still sinking here
In every word I could've said
You're gone so far and gone
Memories just leave me alone
Find myself running slow as time moves faster
I never took the time to say goodbye
Wish we would never grow up, never grow old, never goodbye
Wish we would never grow up, never grow old, never goodbye
Wish you were here today, never grow up, never grow old
Never leaving me alone, never grow up, never grow old
I start it over time and time again
Rewind the scenes inside my head
What's gone is far and gone
Memories won't leave me alone
Find myself growing cold as time moves faster
I never took the time to say goodbye
Was always on the back roads riding high
Some things that I'd like to say
Wish you were here with me today
Wish we would never grow up, never grow old, never goodbye
Wish we would never grow up, never grow old, never goodbye
Wish you were here today, never grow up, never grow old
Never leaving me alone, never grow up, never grow old
So much more to say
But time gets in the way, the way
Wish we would never grow up, never grow old, never goodbye
Wish we would never grow up, never grow old, never goodbye
Wish you were here today, never grow up, never grow old
Never leaving me alone, never grow up, never grow old
Never goodbye
