

Edge of Tomorrow

[Stef Lang](#)

The Edge Of Tomorrow Caught up in the future
Missed the moment
But nobody got no crystal ball
C'est La Vie, La Vie could be passing us by
While you sit here waiting on a curtain call Fe fi fe fi fe fi fo fum
Fe fi fe fi fe fi fo fum
We march we march we march we march on I say the edge of tomorrow
can wait, forget all your sorrow
Cause all we have is right here
The Edge, the edge, the edge of tomorrow
The Edge, the edge, the edge of tomorrow
Forget forget forget tomorrow, tomorrow Caught up in the white noise missed the memo
Wake up in a cold sweat crying out
you don't wanna be, be be with no memories
You better start living it in the now Bridge:
When darkness creeps in to steal the show
It's just a feeling so let it go
