## I Hear Noises

## **Tegan and Sara**

I am disappointed every morning that I wake up I am disappointed by the feeling of waking up next to you

You call me up and let me know that

That my sick guilt is so unwelcome

It's so unwelcome, yeahI hear noises in the darkness

I hear sadness in your voice

I hear noises in the darkness

I hear sadness inside youMy health is failing me so I flip on the television

And watch sad movies and look for sad sick people like me

Call me up and let me know that

That my sick guilt is so unwelcome

I'm so unwelcome, I'm so unwelcomeI hear noises in the darkness

I hear sadness in your voice

I hear noises in the darkness

I hear sadness inside youWe could go, we could go through the front door

We could go, we go in through the front door

We could go, we go in through the front door

We could go, I come in through the front door

Through the front doorAnd the pills they will not, will not, will not, will not let me go

And I will not, will not let you drink yourself alone

You call me up and let me know that

That my sick guilt is so unwelcome

You're so unwelcome, you're so unwelcomeI hear noises in the darkness

I hear sadness in your voice

I hear noises in the darkness

I hear sadness inside youI hear noises in the darkness

I hear sadness inside you

I hear sadness inside you
