

Autumn Leaves

Butch Walker

Well I was never good at picking what to wear for somebody else
This dress will go good with her hair
At least I think in this light
By the lamp beside the couch
With half the light bulbs burnt out
I'm starting to know how that feelsAutumn leaves
Come back to you
Autumn leaves
You feeling blue
But Autumn leaves
Her love for me won'tWell the cancer got her good this time around
18 hours left before they put her in the ground
Was this the hand of God
That they talk about in church
If it is then it won't hurt
Only believers ever knowAutumn leaves
Come back to you
Autumn leaves
You feeling blue
But when Autumn leaves
Her love for me won'tWell there's a cold front headed for the town
This one will be rough
Some killers never make a sound
They just walk up, take a knife to you and yours
Leave a message at my door
When I return to normal you'll knowAutumn leaves
Come back to you
Autumn leaves
You feeling blue
Autumn leaves
What can I do
When Autumn leaves
Her love for me won't
