Fought And Won One

Reggie and the Full Effect

I'd give the world to you
All that I'd want to do
If you believe the outcries
I know everything is all right
Don't want to play that game todayI'd give the world to you
All that I'd ever do
Oh, hold me close to you
Nothing I'd rather doIf you believe the outcries
I know everything is all right
Don't want to play that game todayAnd you're motivating
Separates the smile
That cries goodbye, goodbyeFought and won one
Fought and won one
And it still won't be the sameI'd give the world to you
