

# Miracle

## Heavenly

Freedom is calling me  
From the kingdom of humanity  
I dream to see the sunlight once again  
cause i live throught the night  
On my way  
I'm guilty to regain my life  
Or insanity will invade my mind  
The realm of darkness is under a curse  
Memories of past I regret  
And I dream of a forest  
Which'll be bigger than the world  
I am carried by the wind, to fly  
a fairy's passing by away and calling me  
to join our destiny  
when I saw your face  
I've crossed the heaven's way  
now we ride together  
separated by daylight  
man I feel with you  
wishes can be come true  
since the dawn of time we believe  
that love can change our sight of reality  
freedom I will fight again  
to be number one  
oh Lord, I need help  
the beast inside me is controlling my soul  
condemned to eternity  
proudly I will get away  
and I'll find the mistery  
to enjoye again  
until my dreams become reality  
I'll carry on my way to get power  
" I'm the lord for everyone  
I am coming from your heart  
what you are searching for is on you  
can you believe me  
I'm the lord for everyone  
I am coming from your hearth  
what you are searching for is on you

can you believe me "  
time has come to fight to become one  
rainbows of sky  
show me the way  
in my heart  
love is getting higher  
flying like an angel into the wind  
be my guide  
from here to the road of paradise  
till the end  
And I dream of a forest  
Which'll be bigger than the world  
I am carried by the wind, to fly  
a fairy's passing by away and calling me  
to join our destiny  
when I saw your face  
I've crossed the heaven's way  
now we ride together  
separated by daylight  
man I feel with you  
wishes can be come true  
since the dawn of time we believe  
that love can change our sight of reality  
when I saw your face  
I've crossed the heavens way  
now we ride together  
separated by daylight  
The miracle
