

I Hope It's You

[Donell Jones](#)

Someone who can satisfy my every little need
I'm hopin' it's you
I've been waitin' for someone to bring their love to me
I'm hopin' it's you I wonder if you're qualified to give me love and affection
It's in my mind girl, I'm hopin' that it's you
('Cause things never seem to go my way)
I've been hurt so many times before
And I need a little somethin' more, are you that someone? Someone who can satisfy my every little need
I'm hopin' it's you
I've been waiting for someone to bring their love to me
I'm hopin' it's you Got the opportunity if you want to be my lady
I want you to know that people say, I'm hard to please
(So won't you come and change my world?)
I can give you anything you need
But I wanna know what can you do for me
What can you do do for me, baby? You can make me love you, don't waste my time
Put your heart into it and everything will be alright
You got to promise to be that special one in my life
'Cause it feels so good to know that you are all mine Someone who can satisfy my every little need
I'm hopin' it's you
I've been waitin' for someone to bring their love to me
I'm hopin' it's you Oh baby, girl, I'm looking for someone
Ooh, oh baby, yeah Someone who can satisfy my every little need
I'm hopin' it's you
I've been waitin' for someone to bring their love to me
I'm hopin' it's you Someone who can satisfy my every little need
I'm hopin' it's you
I've been waitin' for someone to bring their love to me
I'm hopin' it's you Someone who can satisfy my every little need
I'm hopin' it's you
