

# Love Comes Again

DJ TiÃ«sto

You have become  
What you have always been  
Life figuring out  
Rephrase your vision

No words I can speak  
A path have been chosen  
All trembling track  
She lead us back and here  
Because of

Love comes again  
Just when I've broken out of love  
Love can come again  
You gotta believe that  
Love comes again  
Just when I've broken out of love  
Love can come again

Deep within me  
Turn all the secret stones  
Voice of fields  
Breathing when love holds  
Still no word we can speak  
A path should be chosen  
But all trembling track  
She lead us back and here  
Because of

Love comes again  
Just when I've broken out of love  
Love can come again  
You gotta believe that  
Love comes again  
Just when I've broken out of love  
Love can come again
