

floated in

Frankie Cosmos

i floated in and started living
asked upon he asked you a question
what are you doing
what are you doing
now it would be bedtime
if i could close off my mind
and just thoughts on t-vu
when inside be blue
what are you
you know i'd love to
rummage though your silky pink space car
ooh
i floated in and started living
asked upon he asked you a question
what are you doing
what are you doing
