Lightspeed

Metrik

They say I gotta have a plan,
I say if you don't burn, you won't tan
They say I gotta watch myself
I have my cake and watch it melt
Uhhh, I'm in a pocket,
With a rocket,
I'm a cocket,
And blow the roof off this Boojy club
Fuck the haters, give me some love
Don't be so pretentious
I fit gold like a dentist
And if I said it, then I meant it
He a soccor player, he head it
I'm goin lightspeed, drinkin
Rice dream, drippin Visine
Bitch cover your eyes, you won't find me
Even beside me, you behind me
By the time you on it, I'll be off it
By the time you get it, I'll be done with it
You know-ow,
That we be goin lightspeed
Ahead, everybody told me I should slow down
But instead, all I can do is take it lightspeed
Outer-space and,
Their is no calculation
Tell me am I'm out of my head
Oh, are we really goin lightspeed
We are experiencing some turbulance
It's The Cataracs!
(Cough)

If you ain't on my flight, you get in flown over
Under a palm tree,
That's where I'm lyin, like when I tell people I'm sober
Got a devil on one shoulder and a angel on the other one
But, but- but- but I ain't never listen to none of 'em
It's been a crazy road runnin
And I- I never stop runnin
People talkin 'bout somethin, but I- I never heard nothin

The sun is set and the clouds are movin
The sky is black and I'm used to it
We awake all night who knew it
I got a dark soul, you can never see through it
By the time you on it, I'll be off it
By the time you get it, I'll be done with it
You know-ow,
That we be goin lightspeed
Ahead, everybody told me I should slow down
But instead, all I can do is take it lightspeed
Outer-space and,
Their is no calculation
Tell me am I'm out of my head
Oh, are we really goin lightspeed
We are experiencing some turb- t- t- t- t- t- t- t- t- t- turbu
It's The Cataracs!
(Cough)
Are we really goin lightspeed
(Speed- speed- speed- speed- speed)
(Speed- speed- speed- speed- speed)
Are we really goin lightspeed...
Are we really goin lightspeed
Light x35
