(Coughing)

Too much inspiration Back when I was a freshman

I learned a valuable lesson

A hoe gonna be a hoe

And it don't matter about you stressin

The only thing you do

Tap that throat and wear protection

And only when she spit it out

Is when you feel rejection

Evidence and DNA drop down

And staining her dress

She is making a great big mess

Would you like to get something off your chest?

And that is no intended pun

I'm just joshing with you Hun

Don't we always have a blast?

As we bust one on one (one on one) I, I want to get into you

I don't want no girlfriend

Just want to get n2u, I want to get into you

I don't want no girlfriend

Just want to get n2u

Now that I'm a graduate

She still got to have it

School days are over

Spike the punch and you can stab it

Jug jug more jug

Push pull more wood

Isotonia club waiting nicely

Cause we go good

Together like slat and pepper

Kool-aid and sugar

Mustard and mayonnaise

Shoulda, coulda and woulda ohhhhhhh And that is no intended pun

I'm just joshing with you Hun

Don't we always have a blast?
As we bust one on one (one on one)I, I want to get into you
I don't want no girlfriend
Just want to get n2uI, I want to get into you
I don't want no girlfriend
