

Only You

Bratz

Only you can be the one
Even though I know you gone
Only you can fix my heart
That's broken I won't pretend
Only you can understand everything I really am
The only one who can find my smile
Was you

Chorus

And I see your face there when I close my eyes
And I can't erase the way I feel inside
I still remember all we shared
How much I wish you knew
That I... Miss you

Only you can say the words
So my heart won't have to hurt
Only you can stop the tears from falling
I'm calling
Only you can make it right
I wish that you were by my side
The only one to make me laugh
Was you

Chorus

And I see your face there when I close my eyes
And I can't erase the way I feel inside
I still remember all we shared
How much I wish you knew
That I... Miss you

I still remember all we shared
How much I wish you knew
That I... Miss you I miss you
And you know it's true
I miss you
