

We Are on Time

Nahko and Medicine for the People

Im not going
Anywhere, babe
This is your home, it's a safe place
We're electric summer storms
All these waters when still is torn
Now I wont fight you
There's no need
Such protections
They make us weak
Every compass needs a north star
Tame this restlessness but keep these wild hearts
I am on your side
I am on your side
Hold your trigger
Push my buttons
Aim for reasons
God we're so stubborn
Is this patience
Showing grace
When to be close
and when to give space
Oh Baby ground me lightening rods
Come for shelter
In these arms
Sometimes I'm broken
Sometimes I'm mended
On the road I can cope to get up and do it all over again
I am on your side
I am on your side I am on your side
I am not drawing a line
All we want
What is right
What is best for your life Hey, hey, hey, hey (repeated) Meet me in the streets, in the dark, in your bare feet
Meet me in a place like your heart, drop a phat beat
Wind begins to blow
Its a sweet validation
Nature has your signs and your clear affirmations
We are on time
We are on time

So come on turn the lights down
Give a little, get a little
So come on let your guard down
Give a little, get a little
So come on turn the lights down
Give a little, get a little
So come on let your guard down
Give a little, get a little Oooohh... Were on time
Oooohh... Were on time
I am on your side
We are on time
I am on your side
We are on time
I am on your side
We are on time
