

# Green Grass of California

## The Band of Heathens

Back in the 70's tokin' Panama Red to the pre 80's  
Constellations falling from the sky  
Then came the newest kick  
Scents of me for the Mexican brick  
Never brings you down but gets you high Oh the green green grass of California  
Pacific breeze so gentle and so kind  
When your eyes are red, spinning in your head  
Remember it's only in your mind  
Then came the strongest stuff  
Single props couldn't haul enough  
To keep on Mendocino County time  
Up and down the PCH, from the black sand beach to the redwood gate  
They engineered a stronger strain and kind Oh the green green grass of California  
Pacific breeze so gentle and so kind  
When your eyes are red, spinning in your head  
Remember its only in your mind We used to roll up another and another  
Don't bogart brother your not alone  
Now the smaller stash  
That cost you twice the cash  
Half as much will lift you to a new time zone  
Oh the green green grass of California  
Pacific breeze so gentle and so kind  
When your eyes are red, spinning in your bed  
Remember its only in your mind  
When your eyes are red, so heavy in your head  
Remember its only in your mind  
Remember its only in your mind
