

Devil's Blood (Single Edit)

De Staat

Show the blessed I got devil's blood
Got the feeling that I should've run
People laughing on to this day, 'cause
I got a made mind, leading astray Can i, come in, take you on
Can i, come in, take you on
It's about time, yeah
It's about time Is the rebel gonna notice
When I take the other way?
I can hold you for the time
But I can't stand another day It's too easy I think every time
I am the man for the perfect crime
Who's gonna see it?
Who's gonna know?
I tell myself in the final blow Can i, come in, take you on
Can i, come in, take you on
It's about time, yeah
It's about time Is the rebel gonna notice
When I take the other way?
I can hold you for the time
But I can't stand another day Can i, come in, take you on
Can i, come in, take you on Is the rebel gonna notice
When I take the other way?
I can hold you for the time
But I can't stand another day
