

# Side By Side

Will Young

Mmm

I don't know about this situation  
It's got me down, it's brought me to my knees  
If I find perfect inspiration  
Just set me free, I'm beggin' darlin' please  
I got to see This is my time  
I feel it's right Please stay with me baby  
Stay with me tonight  
(I'm losing you lately)  
I don't want to say goodbye, ooo  
(If you wanna make it happen, maybe we can work it out)

You and I

(You know)

Have to try side by side  
I can't hide Sitting here, thinkin' what you say  
All those words runnin' 'round my head, yeah  
When it came I read between the lines  
Many thoughts whispered in my mind  
Got to see This is my time  
I feel it's right to tell you baby  
(Right) Please stay with me baby  
Stay with me tonight  
(I'm losing you lately)  
I don't want to say goodbye, ooo  
(If you wanna make it happen, maybe we can work it out)

You and I

(You know)

Have to try side by side  
I can't hide You are my dream complete with me  
(My dream)  
You are my dream complete with me  
(My dream complete with me) Are we ever gonna last forever  
Are we ever gonna make it through  
Don't you know that it's now or never  
I cannot deny, I gotta be true to you (Please stay with me baby)  
I'm losing you lately  
I don't want to say goodbye, ooo  
(If you wanna make it happen, maybe we can work it out)

You and I

(You know)  
Have to try Please stay with me baby  
I'm losing you lately  
If you wanna make it happen, then maybe we can work it out  
You and I  
(You know)  
Have to try  
Yeah, yea, yeah Please stay with me baby  
(Yeah, yea, yeah)  
I'm losing you lately  
(Cause I'm losing you lately)  
I can't hide  
(If you wanna make it happen)  
Maybe we can work it out  
You and I  
(You know)  
Hey, hey  
(Have to try)  
Hmm, hmm
