

I Didn't Stop Dancing

Del Way

Well each and every saturday night
I get to boot scooting boogie till the feelings right
And I tell you I know the soles of my boots are thin
Jesus came along and he saved my soul
Well I knew I'd have to let all my dancing go
But I tell you I'm dancing more now than I did then

And I didn't stop dancing, I just changed dance floors
I didn't stop dancing, I'm dancing more
Oh but now I'm moving, to a brand new sound
And if you think that I danced good then, you ought to see me now

Well used to before I could dance just right
Well I would have to drink a few to get to feeling tight
And let me tell you by the time I hit the floor, I was feeling fine
Well since I been saved a whole lot has changed
But there's a couple of things that remain the same
I'm still drinking but I'm drinking a different wine

And I didn't stop dancing, I just changed dance floors
I didn't stop drinking, I'm drinking more
Yea but now I'm moving, to a brand new sound
And if you think that I danced good then, you ought to see me now

(LEAD)

You may think I'm crazy bout the way I talk
You may think I'm crazy bout the way I walk
You shake your head and just a wonder how could this be
Cause you saw me then and you don't see how
Just a going to church can keep me happy now
Why don't you tag along and you will see

That I didn't stop dancing, I just changed dance floors
I didn't stop dancing, I'm dancing more
Oh but now I'm moving, to a brand new sound
And if you think that I danced good then, you ought to see me now

Well I didn't stop dancing, I just changed dance floors
I didn't stop dancing, I'm dancing more

Oh but now I'm moving, to a brand new sound
And if you think that I danced good then, you ought to see me now
And if you think that I danced good then, you ought to see me now
