Whenever You Want

La Bouche

Whenever you want my love, call me I'll be there
Whenever you need my love, call me I'll be there
Whenever you want my love, call me I'll be there
Whenever you need my love, call me I'll be thereWe've been together, seems like a long time
And somehow we've fallen from a mountain, so hard to climb
I think it's time for us to pick up the pieces
And find a new way to become the friends that we were once beforeWhenever you want my love, call me I'll be there
Whenever you need my love, call me I'll be thereI can remember going places that were everywhere
Now we're just going through the motions feeling nothing there
If we would try maybe we'd pick up the pieces
I know we can, yes we can
Then we can be friends like we were once beforeWhenever you want my love, call me I'll be there
Whenever you need my love, call me I'll be there
Whenever you want my love, call me I'll be there
Whenever you need my love, call me I'll be thereIf we would try maybe we'd pick up the pieces
I know we can, yes we can
Then we can be friends like we were once beforeWhenever you want my love, call me I'll be there
Whenever you need my love, call me I'll be there
Whenever you want my love, call me I'll be there
Whenever you need my love, call me I'll be thereWhenever you want my love, call me I'll be there
Whenever you need my love
