

# God In Me

## Mary Mary

I just wanna tell the truth mayne  
I just wanna tell the truth mayne  
I just wanna tell the truth mayne  
I just wanna tell the truth mayne  
I just wanna tell the truth mayne You're so fly, your so high  
Everybody around you trying to figure out why  
Your so cool, you win all the time  
Everywhere you go man you get a lot of shine  
You're draw like a magnet better yet I have it  
Everything you wear people say they got have it  
From the sweat suit to the white tee to the Gucci  
You can probably say people wanna get like me But what they don't know is when you go home  
And get behind closed doors, man you hit the floor  
And what they can't see is your on your knees  
So the next time you get a chance tell 'em [Chorus]  
It's the God in me  
It's the God in me  
It's the God in me  
It's the God in me  
It's the God in me  
You think I'm so fresh, you think I'm so clean  
You think I'm so sweet  
It's the God in me  
It's the God in me  
What is it you think you see  
It's the God in me You see her style you think she nice  
You look at her whip you say the whip tight  
You look at her crib you thinkin' she's paid  
You look at her life, now you think she's got it made  
But everything she's got the girl's been given  
She calls it a blessing but you call it living  
When it comes to money she can be a hero  
She writes them checks with a whole lot of zeros But what you don't know is when she get home  
And get behind closed doors, man she hits the floor  
And what you can't see is she's on her knees  
If you ask her she'll tell you It's the God in me  
It's the God in me  
It's the God in me  
It's the God in me

It's the God in me  
You think I'm so fresh, you think I'm so clean  
You think I'm so sweet  
It's the God in me  
It's the God in me  
What is it you think you see  
It's the God in me What is it you think you see  
When you see me, you see me  
You don't know how much I pray  
Don't know how much I gave  
Don't know how much I changed  
I'm just tryna explain It's the God in me  
It's the God in me  
It's the God in me  
It's the God in me  
It's the God in me  
You think I'm so fresh, you think I'm so clean  
You think I'm so sweet  
It's the God in me  
It's the God in me  
What is it you think you see  
It's the God in me, yeah  
God in me, yeah yeah  
You think I'm so fresh, you think I'm so clean  
You think I'm so sweet  
It's the God in me, oh oh yeah yeah
