Hardship

Overseas

I want to break out and find a quick return I know I'm blessed with you someone else wants you, too...
You know that I've been this way all my life You feel the same way and it's no surprise
With eyes wide open I'm used to being blind Don't worry about myself I'll carry your cross instead
You know that i've been this way all my life You feel the same way and it's no surprise
You may have to suffer hardships now again... but in the fullness of time you'll have reward, my friend...
I know you're crying... but i'll stop you lying Deep in the middle I've found a foolproof way
You know that i've been this way all my life You feel the same way and it's no surprise
