

# Stand In Your Way

[Jennifer Love Hewitt](#)

So you wanna say goodbye  
You know that's gonna make me cry  
It doesn't even matter why  
I want you to stay And you know that time will tell  
If you're meant for someone else  
But I don't think so, there's no way  
Someone could love you like me and if you go there you'll see If that's really what you want  
If that's really what you've been looking for  
If it's really worth losing all we had before today  
Well if that's what you want, I'm gonna stand in your way  
Yeah yeah Gonna make you wanna love me like  
Used to every single night  
There's so much more I could do  
Maybe I didn't show you enough but I'm not giving up If that's really what you want  
If that's really what you've been looking for  
If it's really worth losing all we had before today  
Well if that's what you want, I'm gonna stand in your way Gonna scream, gonna shout, gonna hold my heart out  
I will not let you go quietly  
Could've lock all the doors, baby then you'll be sure  
That you're wrong and you won't wanna fight me anymore If that's really what you want  
If that's really what you've been looking for  
If it's really worth losing all we had before today  
Well if that's what you want, I'm gonna stand in your way So you wanna say goodbye  
You know that's gonna make me cry, oh oh  
I'm gonna stand in your way  
I'm gonna stand in your way
