Party Up (feat. Colt Ford)

Chase Rice

We gonna melt some ice
We gonna roll the dice
We gonna slip and slide into paradise
We gonna grind some gears
We gonna ring some ears
We gonna drink some beers
'Til they disappear
Turn the party up
Drink the good times down
Little buzz in a cup
Will hit ya get ya space boundSip a little whiskey
Come on baby kiss me
Let me get a drip of your frisky gypsy
And when ya hit ten bump it to eleven
Tonight we gonna fly with them 747's
Get highhhhhhhhh hiiggghhhhh
Gonna kill another 6 pack just to watch it die
Turn the party up up up turn the party up up up
We gonna make it rain
Gonna spit some game
Girl there aint no shame in the walk of fame
We gonna push our luck
We gonna bump the truck
A backseat's what's up ahhh
Hey pretty girl tell me what you think
This country boy pour you a drink
Crank this party up and let's ride
Miles of moonlight by my side
Old dirt roads go straight to heaven
Forget tomorrow tonight were living
Crank this party up to eleven
Forget tomorrow tonight we
