

# Holy Shit

## Father John Misty

Ancient holy wars  
Dead religions, holocausts  
New regimes, old ideals  
That's now myth, that's now real  
Original sin, genetic fate  
Revolutions, spinning plates  
It's important to stay informed  
The commentary to comment on Oh, and no one ever really knows you and life is brief  
So I've heard, but what's that gotta do with this black hole and me? Age-old gender roles  
Infotainment, capital  
Golden bowls and mercury  
Bohemian nightmare, dust bowl chic  
This documentary's lost on me  
Satirical news, free energy  
Mobile lifestyle, loveless sex  
Independence, happiness Oh, and no one ever knows the real you and life is brief  
So I've heard, but what's that gotta do with this atom bomb and me? Colosseum families  
The golden era of TV  
Eunuch sluts, consumer slaves  
A rose by any other name  
Carbon footprint, incest dreams  
Fuck the mother in the green  
Planet cancer, sweet revenge  
Isolation, online friends Oh, and love is just an institution based on human frailty  
What's your paradise gotta do with Adam and Eve?  
Maybe love is just an economy based on resource scarcity  
What I fail to see is what that's gotta do with you and me
