What The Bible Says

Randall Garland, Val Dacus and Wayne HaunV1

It started off in Genesis where God created man  
Each line in Revelation has revealed His master plan  
And every chapter in between illuminates our way  
It's as relevant tomorrow as it was for yesterdayChorus

I believe he walked on water  
And calmed the troubled sea  
I believe he healed a blind man  
And set the captive free

I believe he fed the thousands  
With two fish and a little bread  
And I believe one day He's coming back  
Cause' that's what the Bible saysV2

Man has tried to minimize the power of The Word  
They say there are no absolutes that only truths inferred  
But I believe that every phrase was penned by God's own hand  
My soul is anchored firmly, and forever I will stand
