

Upgrade^Brigade

Fair to Midland

Glow but don't shine
A fuse for a blueprint, devices my hands built
For, for these roads
Want the rain in my raincoat drown in the flash flood
For we are alive Give, given air, not used to Al Fresco
Does the sun know? Deep down I forgot the zeros and ones
Told you to conquer the rush
Sunday I remembered paper beats rock
Reached it mile high and I reached in foot Leopard, leopard skin is not above or beyond him
More a prince than a frog is
For, for these roads should not have shed for a witness
Or taken bites to avenge us
For we are alive Give, given air, not used to Al Fresco
Does the sun know? Today I forgot the zeros and ones
Told you to conquer the rush
Sunday I remembered paper beats rock
Reached it mile high and I reached in foot I'm figuring about
The one thing he's not
It's above or beyond and the ones
Thanking us or taking on or waiting for the tide
For we are alive Today I forgot the zeros and ones
Told you to conquer the rush
Sunday I remembered paper beats rock
Reached it mile high if I reached in foot
