Love Is Real

Ashley Ballard

Mmm ooh yeah hey ho
ooh yeah yeah
love is real ooh
verse 1:
A storm is building in the horizon
I see it coming my way.
I have no fear when I close my eyes
and know that you are here with me.
vamp:
You give me love when I need it the most
You show the way when I'm feeling lost
You give me strength to move on when I'm down.
chorus 1:
Rain can be falling down on me,
but I'll never be lonely you'll see.
You by my side is all I need
In every drop I know that your love is real.
verse 2:
It's all so quiet after a hurricane
together we made it through.
A deeper meaning
I know you feel the same
it's like we already knew.
vamp:
You give me love when I need it the most
You show the way when I'm feeling lost
You give me strength to move on when I'm down.

chorus 2:
Rain can be falling down on me,
but I'll never be lonely you'll see.
You by my side is all I need
In every drop I know that your love is real,
and baby that's how I feel.
bridge:
After rain comes shine
they say love makes you blind.
Now you've open my eyes to see.
I can hardly believe that

your here with me.
vamp:
You give me love when I need it the most
You show the way when I'm feeling lost
You give me strength to move on when I'm down.
You give me love when I need it the most
You show the way when I'm feeling lost
You give me strength to move on when I'm down.
chorus 2:
Rain can be falling down on me,
but I'll never be lonely you'll see.
You by my side is all I need
In every drop I know that your love is real,
and baby that's how I feel.
I know that your love is real.
