Pegasus

[Olivia Newton-John](#)

(Olivia Newton-John)There you were in my dream
Flying high just for me
Oh Pegasus oh Pegasus
White and strong soft and warm
You've been in my mind so long
Oh Pegasus oh PegasusWhere do you come from?
Where have you been?
Where will you go oh?
I'll call for you whenever I need you
Will you take me on your back and fly away?
Will you teach me why I'm here and lead the way?
Oh PegasusSpread your wings I'll climb on
We'll explore the stars you're from
Oh Pegasus oh Pegasus
You're a myth born of light
Sent to heal my world tonight
Oh Pegasus oh PegasusThere you were in my dream
Flying high just for me
Oh Pegasus oh Pegasus
White and strong soft and warm
You've been in my mind so long
Oh Pegasus oh PegasusThrough all time you'll live on
A gift to earth from dark till dawn
Oh Pegasus oh PegasusCreation of magic you live in my heart
Your spirit will guide me though we're dimensions apartThere you were in my dream
Flying high just for me
Oh Pegasus oh Pegasus
Through all time you'll live on
A gift to earth from dark till dawn
Oh Pegasus
