Feel Fine

Young Prisms

I'm leaving today, so why don't you care
I am afraid, I am afraid
Tonight, I'm running away tonight, tonight I am
So far away, say what you say
And I am afraid, well I am so afraid
Tonight, I'm running away tonight, tonight I am, I am
You're so far away I guess

You're so far away I guess, yeah, yeah
Throwin' all my calls away, you don't need me, you don't need me
Drink at night and sleep all day, well I don't need you, I don't need you
I drove on every interstate but you don't need me, you don't need me
Well anyways, well anyways, it's over, over, over, over
Tonight, I'm running away tonight, tonight I am, I am, I am
