

# Feel Fine

## Young Prisms

I'm leaving today, so why don't you care  
I am afraid, I am afraid  
Tonight, I'm running away tonight, tonight I am  
So far away, say what you say  
And I am afraid, well I am so afraid  
Tonight, I'm running away tonight, tonight I am, I am  
You're so far away I guess

You're so far away I guess, yeah, yeah  
Throwin' all my calls away, you don't need me, you don't need me  
Drink at night and sleep all day, well I don't need you, I don't need you  
I drove on every interstate but you don't need me, you don't need me  
Well anyways, well anyways, it's over, over, over, over  
Tonight, I'm running away tonight, tonight I am, I am, I am
