

'til Nothing Comes Between Us

John Michael Montgomery

Close your eyes, can you see me?
Rollin' down the Rocky Mountains
Movin' like the wind that sweeps the Kansas plains
I know you're with me
As I make my way through Oklahoma
Past the barns and weather vanes
There are motels, cafes, fields and billboard signs
A thousand miles of highway
Between your heart and mine

[Chorus]

There will finally come a moment
When one man and one woman
Get everything that they've been waiting for
I'll take you in my arms again
Feel your skin against my skin
Let the sheet fall slowly to the floor
'Til nothing comes between us anymore

In my soul I can feel you
As I cross the Mississippi
You're the river flowin' in me coming home
I count each heartbeat
'Til the moment we're together
And the distance can't be measured
That's all that keeps me going when I'm gone

[Chorus]

There will finally come a moment
When one man and one woman
Get everything that they've been waiting for
I'll take you in my arms again
Feel your skin against my skin
Let the sheet fall slowly to the floor
'Til nothing comes between us anymore
Anymore

[Repeat Chorus to fade]
