Bulletproof

Shawn Desman

All my life I was strong like metal
Took my pride to a whole 'nother level
I wouldn't let nothing in past the armor
I just didn't wanna (wanna, wanna)
Girls would come in and out of my life
Every time it was just another goodbye
Made me think that it wasn't worth the struggle
Wasn't worth the trouble (trouble, trouble)

But then you found my heart
And I fell into your arms

Thought I was bulletproof
'Til you came and shot me down
Somehow you made it through
And girl I don't feel right now
So bulletproof

Your touch, it's some kind of weapon
Got me good and it only took a second
Now I know I was just another victim
But baby I miss ya

And even though you're gone
The damage has been done

Thought I was bulletproof
'Til you came and shot me down
Somehow you made it through
And girl I don't feel right now
So bulletproof

Never thought I would end up wounded
But that's what I get when it comes down to it

Thought I was bulletproof
'Til you came and shot me down (you came and shot me down)
Somehow you made it through
And girl I don't feel right now (I don't feel right now)

(All my life I was strong like metal
Took my pride to a whole 'nother level)

Thought I was bulletproof
'Til you came and shot me down
Somehow you made it through
And girl I don't feel right now, oh oh
