

Get Down

Green Bay Packers

Verse 1

We got the fever; I'm a believer
Can't help but feel it, baby, down in Lambeau
It's time to party; yeah are you with meLet's get it started with this Packers song
Bang on the drum; let's all sing along
It's time to celebrate; it's time to carry onChorus
We came to get down; we came to get loud
Let's get this party going; come on let's get it rollingLook at the scoreboard; it's what we came for
We're gonna shout about it; come on let's sing about itWe came to get down!

Green Bay is our town!Verse 2

Turn up the music; it's time to lose it
This tailgate party's raging out of control
Let's bring the house down; let's hear the whole crowdLet's come together, show 'em what we're about
We pack a punch like a guitar crunch
Just like a rocket, let's get ready to launchChorusBridge
We came to get down; Green Bay is our town
Come on it's game time; get ready to go
We got a party; Lambeau is out of controlChorus
