Psycho Circus

Kiss

Yeah
Hello, here I am
Here we are, we are one
I've been waiting for this night to come
Get up
Now it's time for me to take my place
The make-up runnin' down my face
We're exiled from the human race
You're in the psy
You're in the psycho circus
You're in the psy
You're in the psycho circus
And I say welcome to the show
I've been waiting here to be your guide
So come
Reveal the secrets that you keep inside
Step up
No one leaves 'til the night is done
The amplifier starts to hum
The carnival has just begun
You're in the psy
You're in the psycho circus
You're in the psy
You're in the psycho circus
And I say welcome to the show
Welcome to the show
Welcome to the show
The show
I, I've been waiting here to be your guide
Some come
Reveal the secrets that you keep inside
Step up
No one leaves 'til the night is done
The amplifier starts to hum
The carnival has just begun
You're in the psy
You're in the psycho circus
You're in the psy
You're in the psycho circus

You're in the psy
You're in the psycho circus
You're in the psy
You're in the psycho circus
And I say welcome to the show
Welcome to the show
Welcome to the show
And I say welcome to the show
