

# What's Up Lonely

Kelly Clarkson

Blue, I'm gettin' kind of close to you  
Like a shadow I can't lose  
Hey, you've been hanging with me everyday  
Now you're gettin' in my way  
I know you understand me  
But don't you think maybe it's time to move on What's up lonely?  
Seems you're my only friend who wants to share my pain  
Tell me heartache, what's it gonna take  
For you to leave me alone today  
Just when I think that you're gone  
You're in the mirror looking back at me  
So what's up lonely?  
Lonely, ooh Sometimes, I wish you weren't by my side  
Can't you find another shoulder  
'Cause I, I wanna leave this broken heart behind  
We're both wasting too much time  
Find someone else to rain on  
I'm really gettin' tired of singing this sad song What's up lonely?  
Seems you're my only friend who wants to share my pain  
Tell me heartache, what's it gonna take  
For you to leave me alone today  
Just when I think that you're gone  
You're in the mirror looking back at me  
So what's up lonely? Don't wanna give you a reason  
To hang around anymore  
You won't be hurting my feelings  
If you find another broken heart  
You can lean on Gotta go, gotta move on  
Gotta go, gotta move on  
Just leave me alone What's up lonely?  
(What's up lonely?)  
Seems you're my only  
(Hey)  
Friend who wants to share my pain  
Tell me heartache  
(Tell me heartache)  
What's it gonna take?  
For you to leave me alone today  
Just when I think that you're gone

You're in the mirror looking back at me  
(So what's up lonely?)  
So what's up lonely? Gotta go, gotta move on  
Gotta go, gotta move on  
Yeah yeah, hey What's up lonely?  
Seems you're my only, baby, yeah  
(Friend who wants to share my pain)  
Tell me what's it gonna take  
(Tell me heartache)  
Just leave me alone  
(What's it gonna take?)  
Yeah, yeah, what's up lonely?
