

Revelations

DragonForce

Coming down the mountain on high
Towards the battle we go side by side
Our hearts are filled with honor and pride
'Cause we know our time has come
Silent voices down from below
Rising up through the ice and the snow
Ancient angers cast upon all
Through the land of the slain
Through the dark night, through the rain
Fighting machine we are risen again
Striving forever more
We will survive
Stand and fight! Join the light
Into the battle with power and might
Sound the guns
Raise the cannons of war
With the North Star to guide us we ride on the sky
Blazing up through the Heavens like eagles we fly
And the horsemen shall come, they will judge all your lives
Revelations will now be unveiled
Darkened night set to swallow the light
All is lost there's no one left to fight
Overpowered by the glory and might
Of the ones who stand tall
Fallen heroes scattered around
Deafened ears opens up to the sound
Painful cries rising forever more
From the victims of life and of war
Through the dark night, through the rain
Fighting machine we are risen again
Striving forever more
We will survive
Stand and fight! Join the light
Into the battle with power and might
Sound the guns
Raise the cannons of war
With the North Star to guide us we ride on the sky
Blazing up through the Heavens like eagles we fly
And the horsemen shall come, they will judge all your lives
Revelations will now be unveiled
No more hope of freedom, our dreams are washed away
The second age is coming, it's the dawn of a new day
Judgment stands before us, the second king will rise
Our swords will shine with honor, hatred fills the sky
Hatred fills the sky, yeah
With the North Star to guide us we ride on the sky
Blazing up through the Heavens like eagles we fly
And the horsemen shall come, they will judge all your lives
Revelations will now
With the North Star to guide us we ride on the sky
Blazing up through the Heavens like eagles we fly

And the horsemen shall come, they will judge all your lives
Revelations will now, revelations will now
Revelations will now be unveiled
