

Let The Sky Fall

Marlango

Take time
let it go
let's lose another day
watch it go
let it flow
let's waste another day

let the sky fall
close the door
we'll be dancing all through the night
we'll be dancing all through the night

make away
look around
another day is going round
stand up
pay respect
another day is going down

let the sky fall
close the door
we'll be dancing all through...
let the sky fall
close the door
we'll be dancing all through the night

let the sky fall
close the door
we'll be dancing
let the sky fall
close the door
we'll be dancing all through the night

lay back
wind down
let's see this day fade out
