

Love's Great Ocean

[k.d. lang](#)

Love's great ocean
Came crashing down on me
Overflowing with possibility, on me Pull me under eternal wave
Pull me under I promise, I'll behave Love's great ocean
Come sweeping over me
With this notion of positivity, on over me Here in the ocean
The ocean of deep blue dreams
I'm dreaming of you
Here is the ocean
The ocean I'm longing to be
Streaming into, into you Pull me under eternal wave
Pull me under I promise, I'll behave Love's great ocean
Came crashing down on me
Overflowing with possibility, on me Here in the ocean
The ocean of deep blue dreams
I'm dreaming of you
Here is the ocean
The ocean I'm longing to be
Streaming into, into you
