

# Strange Colores

## Avey Tare's Slasher Flicks

Strange I feel the colors getting warmer  
In the fine little line when I open your face  
Strange I feel the colors moving forward  
In the fine little line when I open your face  
Soft color, bright color, yellow color  
Some are mellow  
Soft color, bright color, yellow color  
Some are mellow  
Soft color, bright color, yellow color  
Some are mellow  
Soft color, bright color, yellow color  
Some are mellow  
Strange I feel the colors getting warmer  
In the fine little line when I open your face  
Strange I feel the colors moving forward  
In the fine little line when I open your face  
Soft color, bright color, yellow color  
Some are mellow  
Soft color, bright color, yellow color  
Some are mellow  
Soft color, bright color, yellow color  
Some are mellow  
Soft color, bright color, yellow color  
Some are mellow  
Night's just like you would have in day  
Strange I feel the colors getting warmer  
In the fine little line when I open your face  
Strange I feel the colors moving forward  
In the fine little line when I open your face  
Soft color, bright color, yellow color  
Some are mellow  
Soft color, bright color, yellow color  
Some are mellow  
Soft color, bright color, yellow color  
Some are mellow  
Soft color, bright color, yellow color  
Some are mellow  
Night's just like you would have in day
