

# Late On 6th

## Silverstein

I hope you understand that I tried hard  
It slipped through my hands  
I know we can't go back  
I made mistakes, I lost track When I called your name, you didn't hear a sound  
I couldn't feel it then, but I need you now  
I didn't see the rain when it came down  
You didn't feel it then, I wish you'd feel it now You struck a match and I burned so bright  
When it got dark we lit up the night  
It's late on 6th and I'm on fire  
I can't put it out, I'm too tired When I called your name, you didn't hear a sound  
I couldn't feel it then, but I need you now  
I didn't see the rain when it came down  
You didn't feel it then, I wish you'd feel it now
