

# Lonely Lover

[Xenia Rubinos](#)

I just can't seem to stop  
The stars from falling  
I just can't wrap my world  
Around it darling  
You call, you call me up just like  
A lonely lover  
You see, you've seen a thousand miles  
Just like this. Mommy just feel like she need to breath today (today)  
Give a little space cause I'm going insane  
And I just need to breath today  
Looking for my glasses in the lost and found  
Willie smacked Papo and they fell down(?) You call me up just like I was your last lost lover  
You see, see me more than words could ever  
Just tell my heart and lay me out to pasture Mommy just feel like she need to breath today (today)  
Give a little space cause I'm going insane  
And I just need to breath today  
Looking for my glasses in the lost and found  
Drink my last five dollars it's raining now  
Mommy don't feel like she got it down  
Watch out cause I heard that's coming around I can't seem to look inside  
I can't deny you won't deny  
Cannot seem to look you in the eye  
You shake like a thousand thunders Mommy just feel like she need to breath today  
Today (oh lalala) can't seem to (oh lalala)  
Just can't seem to win (oh lalala) can't seem to.  
I'm just a little star when I'm falling  
I'm falling out  
Oh lalala
