Out Loud

Omarion

(hook)
Baby girl I wanna lay you down
So take your clothes off right now
Imma make you scream my name out loud
Imma make you scream my name out loud
Baby take your clothes off
Lay you on the table
So we can make love love love
So we can make love
Imma make you scream my name out loud
(verse)
There it is, you standing there
Looking so sexy right now
Yeah i drank too much
I promise let me take your clothes off
Let me satisfy your mind
Girl you showed up right on time
I can hear you body speaking to me
And its saying things that i like
So imma lay you down tonight
(hook)
Baby girl I wanna lay you down
So take your clothes off right now
Imma make you scream my name out loud
Imma make you scream my name out loud
Baby take your clothes off

Lay you on the table
So we can make love love love
So we can make love
Imma make you scream my name out loud
(verse)
Say baby when you're giving it to me
Look at me when you throwing it back
I'm going deeper
Got your legs shaking
Making it a little steeper
Your skin touching my skin
Arch it up arch it up

You were chosen for tonight
Imma kiss your body right
When I lay you down
(hook)
Baby girl I wanna lay you down
So take your clothes off right now
Imma make you scream my name out loud
Imma make you scream my name out loud
Baby take your clothes off
Lay you on the table
So we can make love love love
So we can make love
Imma make you scream my name out loud
