# Say

## Charlie Wilson

It feels good to hear you say
(Verse)
What if my eyes never saw you
What if my path never crossed you
How many times have I told you
Girl I just don't know where I would be, be
(Verse)
What if my lips never kissed yours
And if my soul never missed yours
And what if you never helped me through my storms
Girl I just don't know where I would be
(Chorus)
Baby say you'll never leave
You will always stay with me
Don't need to hear it every day
But every now and then's ok
And baby we're just fine but
It feels good to hear you say
(Verse)
What if these arms never held you
And what if my heart never fails you
One million times I will tell you

And girl I just don't know where
I would be, I would be
(Chorus)
Baby say you'll never leave
You will always stay with me
Don't need to hear it every day
But every now and then's ok
And baby we're just fine but
It feels good to hear you say
(Bridge)
I know you care for me
You're always there for me
But it makes me feel some kind of way
To hear you say
So if you want to say
I won't hesitate

I would say it to you every time you need
(Chorus) x2
Baby say you'll never leave
You will always stay with me
Don't need to hear it every day
But every now and then's ok
And baby we're just fine but
It feels good to hear you say
