

# Just Another Star

## Bullet for My Valentine

This is what I can see through my eyes  
This is the color of your sunrise  
This is what I can see through your eyes Jump, jump, jump, jump  
Can you see the light behind these eyes?  
Jump, jump, jump, jump  
Can you see the light behind these eyes, eyes?  
You've betrayed me for the last time You betrayed me for the last time  
Through the light, I see the truth shine  
This is how I can see through your eyes Jump, jump, jump, jump  
Can you see the light behind these eyes?  
Jump, jump, jump, jump  
Can you see the light behind these eyes, eyes?  
You've betrayed me for the last time You're just another star that's burnt out to quickly  
But I still see you, shining  
I'm just another guy that's fucked up immensely  
But you still love me, why? I don't know This is what I see through my eyes  
Black is the color of your sunrise  
This is what I can see through my eyes  
This is the color of your sunshine You're just another star that's burnt out to quickly  
But I still see you, shining  
I'm just another guy that's fucked up immensely  
But you still love me, why? I don't know
