

Dripping

Container

Find me, want to want
Never what you see
Calling, calling, the depth becomes
Grab a hold of my face, so numb Soar far fly away
I'm breaking through to you
Soar far fly away
I'm breaking through to you Touch you, feel the cold
Friendships grow so old
Difference, difference, never to know
Clearing my mind as I go Soar far fly away
I'm breaking through to you
Soar far fly away
I'm breaking through to you To you
Breaking through
Breaking through
Breaking through
To you, to you Breaking through to you
Breaking through
Breaking through You take away my mind
I'll take away your pride Soar far fly away
I'm breaking through to you
Soar far fly away
I'm breaking through to you I'm breaking through to you
