

# What a Woman Feels

## Billy Burnette

First time I saw you, had that one thing on my mind  
How to be a better person, be a little more kind  
First time you saw me, had that look on your face  
Wonderin' was I worth it, or would I be a big mistake  
Mystery eyes starin' back at me  
With the answer to the question of eternity  
What a woman feels you will never know  
What a woman feels  
She'll keep it inside her soul  
Until she feels that you're for real  
Then I walked up to you, that's been a while ago  
I've learned so much from you  
On our journey down this road  
Well, you showed me how to laugh  
And you taught me how to cry  
When to hold you tight, when to let you fly  
Thought I knew my way around this big old world  
Oh, what I've learned since I loved you girl  
What a woman feels you will never know  
What a woman feels  
She'll keep it inside her soul  
Until she feels that you're for real  
Now I wanna listen  
When you got something weighin' on your heart  
I'd been missin' it  
Thinkin' I was so smart  
What a woman feels you will never know  
What a woman feels  
She'll keep it inside her soul  
Until she feels that you're for real
