

# Rain On You

## Eric Wainaina

How do you lead the match when it just rains on you  
When those who finish are half those who started rains on you  
When no one believes in victory it just rains on you  
It rained on me, it rained on you, match on.

When the bed is evolved and torn it just rains on you  
And they haven't been used in so long, rains on you  
And no one knows the victory so it just rains on you  
It rained on me, it rained on you, walk on.

How do you make a speech when it just rains on you  
There's no one there to teach, rains on you  
When there is only noise around you it just rains on you (yebo)  
It rained on me, it rained on you, seek on (won't you speak on)

Ta-na-na-na  
Ta-na-na-na-na-na  
Ta-na-na-na

Asking one to three its gonna just rain on you  
Singing out of key its gonna just rain on you  
After all its all a rain its gonna just rain you  
It rained on me, it rained on you, sail on

So go on and lead us on then it just rains on you  
Take the short road, take them all then it just rains on you  
Some day you will feel you rise alone, just rain on you  
It rained on me, it rained on you, match on  
It rained on me, it rained on you, seek on  
It rained on me, it rained on you, sail on  
It rained on me, it rained on you..... love on
