

# Rock 'n' Roll

## Kid Rock

Break out the whiskey in a bottle of wine  
Take your shirt off bitch and chop me out a line  
Dim the lights down low, turn up the stereo and  
Don't say a word I already know  
You've never done this before but you feel like tryin'  
I've done this plenty of times and I know you're lyin'  
You know I know, hey hey yeah yeah  
Ooh oh yeah  
Yeah yeah yeah  
You want a shot so I will take aim  
Don't even ask me if I know your name  
Don't look so shocked, do not be confused  
I just wanna shoot your soul, full of rhythm and blues  
Them boys been sellin' you lines  
But you ain't been buyin', buyin'  
But what I'm given is free  
So it's well worth tryin'  
Because I know you like to rock 'n' roll  
You like to rock 'n' roll  
I'll rock you baby all night long  
Then I got to roll  
Oh oh oh  
Oh oh oh  
There's no one left here we can blame, yeah yeah yeah  
It's a lonely walk of shame, I know, we gonna rock 'n' roll  
Can you feel that? I said can you feel that?  
I'm gonna roll now, I'm gonna roll now  
I'm gonna roll now, roll now  
You used to like to disco  
Now you wanna rock 'n' roll  
Bus is leavin' baby, we're pullin' out  
Them Austin Dallas Houston girls are callin' us out  
Girl, dry them eyes, I'm not good at goodbyes  
Tell all your friends I'm that type of guy  
That'll bring out the women  
That you've been hidin'  
It's human nature to be  
What we've all been denyin'  
Baby don't sell tickets

To a player that's already playin'  
Just be who you are  
But understand what I'm sayin'  
That everybody likes to rock 'n' roll  
They like to rock 'n' roll  
Rock 'n' roll  
They want to rock 'n' roll  
Rock 'n' roll  
They like to rock 'n' roll  
Love me baby all night long
