Save The Last Dance

Mindi Abair

I know you catch a lot of hearts, baby
Got them lining up tonight
You got them all revolving round and round
You're like a thousands satellitesNow they're falling hard
Like a house of cards
They blow away like Gliss
I know that when the night is over
That you're gonna save the last dance, save the last dance, for me[Instrumental]You're rocking with your girl friends
Take over while you're dancing
You watch me, while I'm watching
But you act like, it ain't nothingThe way that you're moving
I feel right into your grooving
I'm just about to prove it
'Cause only you can get in, I know you can, for free
If they can take it, I know that's on your own, baby
But you'll be coming home with meI know you catch a lot of hearts, baby
Got them lining up tonight
You got them all revolving round and round
You're like a thousands satellitesNow they're falling hard
Like a house of cards
They blow away like Gliss
I know that when the night is over
That you're gonna save the last dance, save the last dance, for me[Instrumental]When it's rocking, I roll in
Your waist line, I'll be holding
With his bass line, controlling
I'll have the rest of them foldingThe way that you're moving
I feel right into your grooving
I'm just about to prove it
'Cause only you can get in, I know you can, for free
If they can take it, I know that's on your own, baby
But you'll be coming home with meI know you catch a lot of hearts, baby
Got them lining up tonight
You got them all revolving round and round
You're like a thousands satellitesNow they're falling hard
Like a house of cards
They blow away like Gliss
I know that when the night is over
That you're gonna save the last dance, save the last dance, for me[Instrumental]I know you catch a lot of hearts,

baby
Got them lining up tonight
You got them all revolving round and round
You're like a thousands satellitesNow they're falling hard
Like a house of cards
They blow away like Gliss
I know that when the night is over
That you're gonna save the last dance, save the last dance, for me
