

A Little Heroin Song

Blood on the Saddle

Well I wish I had some Heroin to make me feel so good
I'd go downtown to the dealer man and buy some if I could
And hang out with my junkie friends like the loser that I am
If I only had some Heroin, I'd be a happy man.

Well when I was a baby sucking my mother's breast
I said MMMMM... This is mighty nice, snuggled against her chest
Now that I'm a full-grown man with no one to hold me tight,
I need a little Heroin to help me through the night.

Well I never get no kisses and I sure don't get no hugs,
I just sit around with my buddies and we all do lot's of drugs.
And talk about the good old days when we were fine young men...
Hear my cry, I wanna get high, I want some Heroin!

Well I was raised in a Babtist church where everything's a sin
If I had it all to do over, I'd do it all again.
I know that Jesus loves me and I know that he's my friend,
But he can't help me near as much as a boot of Heroin.

Well I wish I had some Heroin to make me feel so good
I'd go downtown to the dealer man and buy some if I could
And hang out with my junkie friends like the loser that I am
If I only had some Heroin, I'd be a happy man.
